

Business Broadband

Broadband from Xfiber gives your company access to Internet with high quality and optimal functioning 24/7.

Xfiber provides "high end" business broadband designed for professional users, our solutions are based on fiber, SHDSL or VDSL , which means that we can offer flexible solutions tailored to each company's needs for bandwidth.

Xfiber has built up an extensive and redundant core network. Our network is connected to a number of other operators' redundant access networks. This enables us to deliver Broadband services with good performance and high availability to business customers.

- 🕒 Broadband provided over fiber, SHDSL or VDSL
- 🕒 Guaranteed bandwidth, no "overbooking "
- 🕒 Free support 24/7
- 🕒 Guaranteed uptime 99.8 %
- 🕒 Premium SLA included
- 🕒 Fixed official IP-address included
- 🕒 Access to highly certified technical team
- 🕒 Router maintained by Xfiber
- 🕒 24 hour monitoring of lines and router

Support

Xfiber strive to be the best value on service, availability and expertise. Our customers are guaranteed access to highly qualified technical resources, without waiting in line for support.
